## **Installation of Magaya Mobile Programs**

This topic explains how to download and install WMS Mobile and Magaya POD Mobile applications onto wireless handheld units. The screenshots in this document may not match exactly to the unit you are working with, but the steps are the same. Please consult the manufacturer's documentation for questions about the handheld unit.

## **Download and Installation Steps**

1) Follow these download and installation steps.

On the handheld, go to <u>http://m.magaya.com</u> to download the program components:

- 7) Close the screen to return to the main menu.
- 8) Open the "My Device" folder.

- 9) Open the folder that has the downloaded files you saved.
- 10) Tap on the installation program first. The installation program must be installed BEFORE the other components. The following screenshot shows the "instWMS" icon for WMS:

11) Install the other components and save them in the same folder.

12) Close this screen after installing all the components.

13) Return to the main menu.

Now the Magaya WMS icon (or POD icon) displays in the handheld main screen:

## Resources

See the *Magaya Supply Chain Solution Operations Manual* for information about the wireless antenna, how to perform the initial inventory setup in the Magaya database, how to use the WMS Mobile application for receiving, moving, and releasing items.

WMS Mobile configuration steps for entering mobile employees, setting permissions, etc. are explained in the *Magaya Software Customization Manual*, Chapter 3.

For details on using the Magaya POD Mobile application, please see the *Magaya Software Communications Manual*, Chapter 10.
